EX PARTE OR LATE FILED

DOCKET FILE COPY ORIGINAL

FEDERAL COMMUNICATIONS COMMISSION WASHINGTON, D.C. 20554

THE SECRETARY - ROOM 222

23 FEB 1993

IN REPLY REFER TO: 7330-7/1700A3 RECEIVED

APR 1 2 1993

FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

Honorable Alex McMillan House of Representatives 401 Cannon Building Washington, D.C. 20515

Dear Congressman McMillan:

This is in reply to your letter of February 5, 1993, in which you inquired on behalf of your constituent, John N. Franke, regarding the Notice of Proposed Rule Making (Notice) in PR Docket No. 92-235, 57 FR 54034 (1992). This Notice proposes comprehensive changes to the Commission's Rules governing the private land mobile radio services operating in the frequency bands below 512 MHz.

Those rules have been in place for over 20 years. While they have been amended on numerous occasions since that time, they nonetheless embody regulatory concepts based on yesteryear's technology and, unless changed, will at it to create and development of private lead achieve and

We are, of course, sensitive to the concerns of both users of private land mobile radio spectrum and R/C hobbyists. We will, therefore, take into careful consideration all their comments. Your constituent's concerns will be fully evaluated when we develop final rules in this proceeding. As indicated in the Notice, we remain convinced that without significant regulatory change in radio operations in the bands below 512 MHz, the quality of communications in the private land mobile radio services will continue to deteriorate to the point of endangering public safety and the national economy.

We want to thank you for your interest in this proceeding. Comments on the proposals set forth in the <u>Notice</u> are due May 28, 1993, and Reply Comments are due July 14, 1993. We expect final rules to be issued in 1994. We urge your constituent to file formal comments on all aspects of the proposals.

Sincerely.

Ralph A. Maller

Chief, Private Radio Bureau

JOHN N. FRANKE RT 12, BOX 165 A STATESVILLE, NORTH CAROLINA 28677

January 17, 1993

The Honorable Alex McMillan United States Senate Washington, D.C.

Dear Sir:

Subject: Federal Communications Commission NPRM Docket 92-235

It is difficult to understand how the FCC has developed this 419 page document relative to part 88 without being aware of its effect on part 95.

In short, enactment as presented will impinge upon a ten year program, of the same agency, to assign, test and integrate certain frequencies dedicated to hobby use. At some expense, the hobbiests have converted to these frequencies, with the understanding that, though shared with other users at minimal gap, they would be usable for the forseeable future. The new, proposed frequencies will, when considering tolerances, power and the new user's mobility, overlap hobby frequencies on the 72 and 75 MHZ band. Interference to us is the loss of a three or four hundred airplane.

Modeling led me to a career in aviation, including a 51 mission tour in B-17's during WWII. It is now my only affordable flying and I am reluctant to abandon several carefully built airplanes and rather expensive radios and ongines not to mention auxiliary tools and equipment.

Most: I shall miss a very rewarding hobby of sixty
